Water Works

Goes Dewn, Crushing the Walls and Delaging the Building—A House Swept Forman And Several Persons Injured.

Sunday the immense stand-pipe of the Defiance, O., water works collapsed, scattering wreck and rein on every hand. The pipe was twenty-four feet in diameter and one hundred and forty-five feet high, and at the time of the disaster lacked but twelve feet of being full. Five-eighth iron had been used in the construction. Just what caused the seeddent is a matter of conjecture. The most plausible theory advanced is this There was a large the its supposed that it became wedged in some way and thus increased the pressure, as the pumps were at work when the pipe burst. A telegraph operator named Matthew, who was on the grounds in the city, but before he could reach it the pipe burst. May the form the distribution of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make a pile of the pipe and take a look at the city, but before he could reach it the pipe burst make the pipe burst deared the pipe to the pipe and take a look at the city of the pipe and t
